PROFESSIONAL SUMMARY

I am a JavaScript developer that focuses on front-end frameworks such as React. I have a passion for CSS, Testing JavaScript, and Web Accessibility. To grow my skills I do open source, read and listen to front-end podcasts. Also, I watch video lectures from Treehouse, Egghead, and FEM.

WORK EXPERIENCE

Avanade - Front-End Developer
Jan 2022 – Current

- Developed and implemented front-end code using HTML, CSS, JavaScript, jQuery to create a responsive web application that works across multiple devices (desktop, tablet, mobile).
- Ensured all pages are optimized for speed and performance by eliminating unnecessary scripts/styles where possible.
- Worked closely with other developers on our team to ensure proper implementation of any changes made in the code base.

New York Power Authority - Front-End Developer
Nov 2020 - Dec 2021

- Developed a dynamic and interactive website ensuring high traffic, page views, and user experience resulting a 15% increasing in sales revenue.
- Performed comprehensive unit testing on complex code.
- Testing the website on multiple browsers with their old as well as latest release.

City of Irvine - Front-End Developer
Jul 2019 - Oct 2020

- Involved in developing the UI pages using HTML, CSS, Javascript, JSON, jQuery, and Ajax.
- Developed front for the entire website using HTML5, CSS3, and JavaScript.
- Applied jquery core library functions for the logical implementation of all the applications at the client side.

PERSONAL PROJECTS

- Built Amazon-clone app using react which is an e-commerce store with full functionality, front and back end.
- Built Netflix-clone using react which is an online video streaming service.
- Built Zoom replica using Node.js. so that two or more users can go online and meet face to face.
